GitHub: github.com/Emanmohammednur • LinkedIn: linkedin.com/in/eman-mohammednur-807894436

PROFESSIONAL PROFILE

Multidisciplinary professional combining an academic background in Clinical Pharmacy with a strong focus on Software Engineering, Artificial Intelligence, and secure technology. Brings together healthcare knowledge, scientific reasoning, and analytical thinking with practical experience in web application development, programming, API integration, and collaborative software projects.

Has pursued technical education through ALX, INSA, Akiba Technologies, and Cisco Networking Academy, developing a broad foundation across software engineering, backend development, networking, and cybersecurity.

Particularly interested in bridging healthcare and technology through intelligent software, secure digital infrastructure, and AI-powered solutions that address meaningful real-world challenges.

TECHNICAL SKILLS & TECHNOLOGIES

Programming & Software Engineering
Python • JavaScript (ES6+) • C • Object-Oriented Programming • Data Structures & Algorithms • Computational Thinking • Algorithmic Problem-Solving

Frontend Engineering
HTML5 • CSS3 • React.js • Bootstrap • Responsive Web Design • Component-Based Development • API Integration

Backend & Application Development
Node.js • Express.js • RESTful API Development • Supabase • Server-Side Development • Database Integration

Development Tools & Platforms
Git & GitHub • Visual Studio Code • Vite • Postman • Linux • VirtualBox

Cybersecurity & Networking
Computer Networking Fundamentals • Network Security • Web Application Security • Security Monitoring • Telemetry • Application Security Testing Fundamentals

Artificial Intelligence
Artificial Intelligence Foundations • Machine Learning Concepts • AI Applications in Healthcare

SELECTED PROJECT EXPERIENCE

Wotmed-Net | Collaborative Software Engineering & Security Project
- Contributing to a collaborative web application focused on deception technology and security monitoring.
- Working with JavaScript, Node.js, Git, and GitHub-based development workflows.
- Contributing to telemetry-related development and security event monitoring.
- Collaborating with a multidisciplinary development team to integrate project components.

Student Task Dashboard | Web Application Development
- Contributed to a collaborative student task management application.
- Applied frontend development practices and GitHub-based feature collaboration.
- Gained experience in project organization, source control, and team-based software development.

Weather Application | API-Driven Web Development
- Developed an interactive weather application integrating an external API.
- Implemented dynamic data retrieval, processing, and presentation.
- Applied JavaScript, HTML, and CSS to create a responsive user experience.

Personal Portfolio | Frontend Development
- Designed and developed a professional portfolio showcasing technical capabilities and software projects.
- Applied modern frontend technologies and responsive design principles.
- Focused on usability, visual consistency, and professional digital presentation.

EDUCATION

Clinical Pharmacy | Present

Academic focus: Clinical Pharmacology • Pharmacotherapy and Therapeutics • Pharmaceutical Sciences • Patient-Centered Healthcare • Clinical Assessment and Reasoning

TECHNICAL EDUCATION & PROFESSIONAL DEVELOPMENT

INSA | Cyber Talent Summer Camp 2026

Development Track | Completed

- Successfully progressed through the selection stages.
- Completed the program's technology-focused development experience.

ALX | Technology Education

2023

- Participated in an ALX scholarship-based technology learning opportunity.
- Gained exposure to C programming, software development, and full-stack development concepts.

Akiba Technologies | Software Engineering & Backend Bootcamp

Batch 1 | In Progress

- Selected for structured software engineering and backend development training.
- Developing practical capabilities in programming, backend engineering, and application development.

Cisco Networking Academy | Networking & Cybersecurity

Jimma University | Completed — 2026

- Completed networking and cybersecurity coursework.
- Developed foundational knowledge of networking technologies, network infrastructure, and cybersecurity principles.

Oasis Infobyte | Internship Program

Selected Participant | 2026

- Selected for an internship program focused on practical exposure and industry-oriented development activities.

FUSE AI 101 | Foundations of Artificial Intelligence

- Participated in foundational artificial intelligence education.
- Developed an understanding of AI concepts and potential applications.

CORE PROFESSIONAL COMPETENCIES

Software Development & Engineering • Analytical and Clinical Reasoning • Technical Problem-Solving • Collaborative Engineering • Research & Continuous Learning • Healthcare Systems Understanding • Technical Documentation • Cross-Disciplinary Innovation

PROFESSIONAL INTERESTS

Software Engineering • Full-Stack Development • Artificial Intelligence • Machine Learning • Cybersecurity • Network Security • Digital Health • Healthcare Technology • Intelligent Systems
